

UVBIT EXECUTIVE SUMMARY

August 3, 2016

UVBIT EXECUTIVE SUMMARY

- The Grab
 - 2+ year stealth development of proprietary intellectual property (IP) and product
 - 1 patent granted for anti-screen/photographic-capturing
 - App went online 8/1/16 on both Apple App Store and Google Play Store (details see uvbit.com)
- The Problem
 - The unserved/underserved needs for confidential messaging
 - Anti-screen capturing and ephemeral message display
 - Confidential online rendezvous of anonymous parties for messaging
- The Solution
 - UVBIT proprietary rolling-shutter view, speed texting, and rendezvous messaging
- Market Potential
 - U.S. Intelligence Community, IP sensitive commercial companies or individuals etc
- Competitive Advantage
 - UVBIT unique solutions are protected by granted and pending patents.
 - Small team with proven all-round capabilities in iOS, Android, and Web, and server development, in addition to IP & business development
 - More disruptive application (App and patent) for IOT Fintech is in the development.
